EMOTIONAL AND BEHAVIOR PROBLEM SCALE SECOND EDITION: RENORMED **(EBPS-2:R)**

Stephen B. McCarney, Ed.D. & Tamara J. Arthaud

Copyright © 2012

The Emotional and Behavior Problem Scale-Second Edition: Renormed (EBPS-2:R) School and Home Versions were developed to aid in diagnosis, placement, and planning for emotionally disturbed/behaviorally disordered children and adolescents from 5 through 18 years of age. Two interpretations of the items on the scale are provided. The Theoretical Interpretation is based on the federal definition of emotional disturbance (IDEA). Each subscale is associated with one of the five characteristics of emotional disturbance contained in the federal definition. The EBPS-2:R Theoretical Interpretation subscales are

Learning Problems,

Interpersonal Relations,

Inappropriate Behavior, Unhappiness/Depression, and

Physical Symptoms/Fears.

The Empirical Interpretation of the items on the scale represents a factor analysis clustering of the items into five disorders and represents a clinical perception of the items included on the scale. Each subscale is associated with one of the disorders. The EBPS-2:R Empirical Interpretation subscales are

- Social Aggression/Conduct Disorder, Social-Emotional Withdrawal/Depression,
- Learning/Comprehension Disorder,
- Avoidance/Unresponsiveness, and Aggressive/Self-Destructive.

During initial development, the **EBPS** was subjected to field testing by 867 teachers from grade levels K-12 which resulted in the 58 items included in the final version of the scale. The **EBPS-2:R School Version** was standardized on a total of 1,715 students, distributed across all grade levels, K-12. Demographic characteristics of the standardization population represented national percentages of gender, race, residence, geographic area, and occupation of parents.

Internal consistency of the EBPS-2:R School Version exceeded .92 for each subscale. The test-retest reliability correlation coefficient was .73 for the total score. Coefficients for inter-rater reliability for the subscales ranged from 068 to .88 for all age levels. Content validity was established through the initial development process. The EBPS-2:R was compared to the Behavior Evaluation Scale-Third Edition: Long School Version (BES-3:L SV) (McCarney & Arthaud, 2005) and the Scale for Assessing Emotional Disturbance-School Form (SAED) (Epstein & Cullinan, 1998) as a measure of concurrent validity. Each subscale reached p< .05 level of confidence when compared to the BES-3:L SV and the SAED. Item performance correlated positively with total scale performance, further substantiating the internal cohesiveness of the scale as a measure of emotional disturbance.

The **EBPS-2:R** uses frequency-referenced quantifiers. Each item on the **EBPS-2:R** is rated on a seven-point scale from (1) NOT IN MY PRESENCE to (7) MORE THAN ONCE AN HOUR. Following completion of the **EBPS-2:R**, five types of scores may be obtained: frequency rating for each item (reflecting the frequency and severity of the behavior), subscale raw score (the sum of the frequency ratings for each subscale), subscale standard score (a consistent basis for comparing scores), total test quotient (a consistent basis for comparing scores), and a percentile (a global index of behavior in all areas measured within the total scale). Using the subscale standard scores, a profile of the student's behavior across the subscales is constructed for both the Theoretical and Empirical Interpretations.

The **EBPS-2:R** takes approximately 20 minutes to complete and can be completed by anyone familiar with the student: (e.g., the classroom teacher, guidance counselor, or other school personnel). The **EBPS-2:R** complete kit consists of School and Home Version rating forms and technical manuals, and the *Emotional and Behavior Problem Scale IEP and Intervention Manual*.

The Emotional and Behavior Problem Scale IEP and Intervention Manual (167 pages, © 1989) includes goals, objectives, and intervention strategies for each behavior on the scale and was designed for the convenient development of the student's IEP and intervention program. The EBPS-2:R Quick Score computer program converts raw scores to standard scores and a total scale quotient and percentile. The computer program for the *Emotional and Behavior Problem Scale IEP and Intervention Manual* provides an individualized report of IEP goals, objectives, and intervention strategies selected for a student.

The EBPS-2:R is a valuable tool designed to assist school personnel in making diagnostic, placement, and programming decisions for emotionally disturbed/behaviorally disordered children and adolescents. The strong reliability and validity of the scale make the EBPS-2:R an efficient and effective means of measuring student behavior for educational decision making. The companion *Emotional* and Behavior Problem Scale IEP and Intervention Manual is a must for use in program development and intervention strategies for emotionally disturbed/behaviorally disordered students.

SCHOOL VERSION RATING FORM

Stephen B. McCarney

COVER SHEET

RATING GUIDELINES

- The student should be rated by educational personnel with primary observational opportunities who work directly with the student during instructional situations.
- Any number of persons may rate the student.
 Each person should independently rate (i.e., without conferring with others) the student using a separate rating form.
- It is recommended that the rater read each quantifier with the item before rating the item. Using item 56 as an example, the rater would first read, "Not in my presence throws temper tantrums," then "One time in several months throws temper tantrums," then "Several times, up to one time a month throws temper tantrums," then "More than one time a month, up to one time a week throws temper tantrums," then "More than one time a week, up to once a day throws temper tantrums," then "More than once an hour throws temper tantrums," and finally "More than once an hour throws temper tantrums."
- It is not necessary to complete the rating of a student in one day. Several days may elapse before the rater is able to complete the scale.
- If the rater has not personally observed the student demonstrate the behavior, the rating should be

1

NOT IN MY PRESENCE.

 If the rater has observed the student for more than one month and has observed the student demonstrate the behavior one time, the rating should be

ONE TIME IN SEVERAL MONTHS.

 If the behavior has been demonstrated several times over more than one month with a frequency average of once a month, the rating should be

3

SEVERAL TIMES, UP TO ONE TIME A MONTH.

 If the behavior has been demonstrated more than once a month, even several times per month, up to an average of one time a week which means no more than four times per month; the rating should be

MORE THAN ONE TIME A MONTH, UP TO ONE TIME A WEEK.

 If the behavior has been demonstrated more than one time per week, even several times per week, up to one time per day; the rating should be

5

MORE THAN ONE TIME A WEEK, UP TO ONCE A DAY.

 If the behavior has been demonstrated more than one time a day, up to one time per hour; the rating should be

MORE THAN ONCE A DAY, UP TO ONCE AN HOUR.

 If the behavior has been demonstrated more than once an hour and included behavior with unlimited frequency which may even defy accurate counting at extremely high rates, the rating should be

MORE THAN ONCE AN HOUR.

LEARNING PROBLEMS

- Does not perform or complete classroom assignments during class time (e.g., will not perform the assignment or does not use the time provided, will go on to another assignment before completing the first, etc.)
 Does not turn in homework assignments (e.g., does not do the assignment, loses the assignment after completing it, does not bring the assignment to class to turn in, etc.) (If the student is not yet assigned homework, rate this item 1.)
- 3. Fails to perform assignments independently (e.g., continually asks for assistance or reassurance; will not begin, work on, or complete assignments without assistance; etc.) (If it is not developmentally appropriate for the student to have mastered this skill, rate this item 1.)
- 4. Performs classroom tests or quizzes at a failing level (If the student is not yet expected to take tests or quizzes, rate this item 1.)
- 5. Does not prepare for assigned activities (e.g., does not study for tests or quizzes, does not read assigned material, etc.) (If the student is not yet expected to prepare for assigned indivities, rate this item 1.)
- 6. Does not remain on-task (e.g., is easily distracted by other students or the teacher, is more interested in other activities, sits and does nothing, etc.)
- 7. Does not perform academically at his/her ability level (i.e., performs below ability level or at a failing level)
- 8. Is reluctant to attempt new assignments or tasks
- 9. Has difficulty with short-term or long-term memory (e.g., cannot remember directions, cannot memorize a poem, cannot recall information previously learned, etc.)
- 2 10. Has difficulty understanding abstract concepts
- 11. Does not comprehend what he/she reads (If it is not developmentally appropriate for the student to have mastered this skill, rate this item 1.)
- 12. Requires repeated drill and practice to learn what other students master easily
- 22 Raw Score

INTERPERSONAL RELATIONS

- 13. Fights with other students (e.g., scratches, hits, pulls hair, etc.)
- 14. Becomes physically aggressive with teachers (e.g., pushes, pulls away, grabs, etc.)
- 15. Makes inappropriate comments to teachers (e.g., argues, threatens, calls names, curses, makes rude comments, uses obscenities, etc.)
- 16. Is easily angered, annoyed, or upset (e.g., hits, argues, yells, throws things, cries, withdraws, etc.)
- 17. Agitates and provokes peers to a level of verbal or physical assault (e.g., makes derogatory comments or gestures, touches, etc.)
- 18. Has little or a c interaction with teachers (e.g., does not tal't, make eye contact, ask questions, seek assistance, etc.)
- Has little or no interaction with peers (e.g., does not talk, share in activities, make friends, etc.)
- 20. Makes inappropriate comments to other students (e.g., argues, calls names, curses, uses obscenities, makes rude comments, etc.)
- 21. Responds inappropriately to typical physical exchanges with other students (e.g., being bumped, touched, brushed against, etc.)
- 22. Is not accepted by other students (e.g., is ignored, teased, ridiculed, etc.)
- 23. Does not share possessions or materials
- 24. Does not allow others to take their turns, participate in activities or games, etc.
- 13 Raw Score

INAPPROPRIATE BEHAVIOR

- 25. Makes inappropriate comments or unnecessary noises in the classroom (e.g., talks to other students without permission, calls out answers, interrupts, makes fun of others, hums, taps, burps, etc.)
- **26.** Has unexcused absences (e.g., absent from school, skips classes, etc.)
- 27. Has unexcused tardiness (e.g., late to school, late to class, late to activities, etc.)

HOME VERSION RATING FORM

Stephen B. McCarney

COVER SHEET

RATING GUIDELINES

- The child/youth should be rated by parents, guardians, houseparents, etc., with primary observational opportunities who live with the child/youth in his/her home or living quarters.
- Any number of persons may rate the child/youth. Each person should independently rate (i.e., without conferring with others) the child/youth using a separate rating form.
- It is recommended that the rater read each quantifier with the item before rating the item. Using item 38 as an example, the rater would first read, "Not in my presence throws temper tantrums," then "One time in several months throws temper tantrums," then "Several times, up to one time a month throws temper tantrums," then "More than one time a month, up to one time a week throws temper tantrums," then "More than one time a week, up to once a day throws temper tantrums," then "More than once a day, up to once an hour throws temper tantrums," and finally "More than once an hour throws temper tantrums."
- It is not necessary to complete the rating of a child/ youth in one day. Several days may elapse before the rater is able to complete the scale.
- If the rater has not personally observed the child/ youth demonstrate the behavior, the rating should be

NOT IN MY PRESENCE.

 If the rater has observed the child/youth for more than one month and has observed the child/youth demonstrate the behavior one time, the rating should be

ONE TIME IN SEVERAL MONTHS.

 If the behavior has been demonstrated several times over more than one month with a frequency average of once a month, the rating should be

3

SEVERAL TIMES, UP TO ONE TIME A MONTH.

 If the behavior has been demonstrated more than once a month, even several times per month, up to an average of one time a week which means no more than four times per month; the rating should be

MORE THAN ONE TIME A MONTH, UP TO ONE TIME A WEEK.

 If the behavior has been demonstrated more than one time per week, even several times per week, up to one time per day; the rating should be

5

MORE THAN ONE TIME A WEEK, UP TO ONCE A DAY.

 If the behavior has been demonstrated more than one time a day, up to one time per hour; the rating should be

MORE THAN ONCE A DAY, UP TO ONCE AN HOUR.

 If the behavior has been demonstrated more than once an hour and included behavior with unlimited frequency which may even defy accurate counting at extremely high rates, the rating should be

MORE THAN ONCE AN HOUR.

LEARNING PROBLEMS

- 1. Has difficulty with short-term or long-term memory (e.g., does not remember directions, does not recall information previously learned, etc.)
- 2. Has difficulty understanding abstract concepts (e.g., time, distance, speed, units of measurement, etc.)
- 3. Has difficulty understanding what he/she sees, hears, reads, etc.
- 4. Requires repeated experiences to learn what others learn easily
- 5. Does not do homework (If your child does not yet receive homework assignments, rate the item 1.)
- 6. Does not independently perform chores or responsibilities (e.g., has to be reminded, does not begin or complete responsibilities without assistance, etc.)
- 7. Does not study or prepare for tests or quizzes (If your child is not yet expected to take tests or quizzes, rate this item 1.)
- 8 Raw Score

INTERPERSONAL RELATIONS

- 2 8. Fights with brothers, sisters, or friends
- 9. Makes inappropriate comments to brothers, sisters, or friends (e.g., argues, threatens, curses, calls names, teases, etc.)
- 10. Leaves the house without permission
- 11. Makes inappropriate comments to adults (e.g., argues, calls names, curses, makes rude comments, uses obscenities, talks back, etc.)
- 1 12. Does not share possessions or materials
- 13. Does not allow others to take their turn, participate in activities or games, etc.

- 14. Gets upset when bumped, touched, brushed against, etc.
- 15. Has little or no interaction with adults (e.g., does not talk, make eye contact, ask questions, seek assistance, etc.)
- 16. Has little or no interaction with peers (e.g., does not talk, share in activities, make friendships, etc.)
- 17. Is not accepted by other children or adolescents in the neighborhood
- <u>12</u> Raw Score

INAPPROPRIATE BEHAVIOR

- 18. Does not change behavior from one situation to another (e.g., gets excited and does not calm down, does not stop one activity and begin an other, etc.)
- 19. Decomes physically aggressive with adults (e.g., pushes, pulls away, grabs, hits, etc.)
- 20. Is impulsive (e.g., reacts immediately to situations without thinking, is impatient, fails to wait, etc.)
- 21. Does not follow directions from parents or other home authority figures (e.g., refuses to do what he/she is told, goes on doing what he/she was doing, does the opposite of what he/she is told, etc.)
- 22. Ignores consequences of his/her behavior (e.g., knows that his/her behavior will get him/her in trouble but engages in the behavior anyway)
- 23. Lies, denies, exaggerates, distorts the truth
- 24. Gets angry when told he/she is wrong, told to do something a different way, etc.
- 25. Behaves inappropriately in the home (e.g., runs in the house, does not sit appropriately on the furniture, yells, etc.)

III. Goals, Objectives, and Interventions

1 Fails to perform tasks independently

Goal: 1. The child will independently perform tasks.
Objectives:
1. The child will attempt to perform a given task before asking for teacher assistance on
out of trials. 2. The child will read necessary directions, instructions, explanations, etc., before asking
for teach assistnace on out of trails.
3. The child will independently complete out of tasks per school day.
4. The child will ask for teacher assisstance only if necessary when performing tasks on
out of trials.
5. The child will work for minutes without requiring assistance from the teacher on
out of trials

Interventions:

- 1. Reinforce the child for communicating his/her needs to others only when necessary (a) give the child a tangible reward (e.g., classroom privileges, line leading, pasing out materials, five minutes free time, (etc.), or (b) give the child an intangile reward (e.g., priase, handshake, smile, et.c)
- **2.** Reinforce the child for performing tasks independently.
- 3. Speak to the child to explain: (1 what he/she is doing wrong (e.g., asking for teacher assistance when not necessary) and (b) what he she should be doing (e.g., asking for teacher assistance when necessary.
 - **4.** Establish classroom rules:
 - Share..
 - Work quietly.
 - Keep hand and feet to yourself.

Review rules often. Reinforce the child for following the rules.

- **5.** Reinforce those children in the classroom who communicate their needs to otherw when necessary.
- **6.** Reinforce the child for communicating his/her needs to others based on the number of times he/she can be successful. As the child demonstrates success, gradually increase the number of times required for reinforcement.

- 7. Write a contract with the child specifying what behavior is expected (e.g., asking for teach assistance) and what reinforcement will be made available when the terms of the contract have been met.
- **8.** Communicate with parents (e.g., notes home, phone calls, etc.) in order to share information concerning the child's progress and so that they may rein once the child at home for completing a signments at school.
- Choose a peer to model for the child communication of needs to others.
- **10.** Evaluate the appropriateness of expecting the child to communicate his/her needs to others when necessary.
- **11.** Maintain mobility throughout the classroom in order to determine the child's needs.
- **12.** Offer the child assistance throughout the day.
- **13.** Make certain that directions, explanations, and instructions are delivered on the child's ability level.
- **14.** In order to detect the child's needs, communicate with the child as often as opportunities permit.
